DELEGATES FOR CONVENTION

ADVANCE GUARD ARRIVES IN CHICAGO

Gathering Promises to Lack Excitement of Former Conventions—Chief Interest Centers in Vice Presidency.

Chicago, June 18.—The advance guard of delegations to the Republican national convention have arrived in Chicago and the greater number of them are expected to come to-morrow and Monday. From all indications the convention promises to lack something of the excitement of other gatherings of its kind. The chief interest so far centers in the vice presidential nomination. The opposition against Secretary Cortelyou for chairman of the national committee seems to be dying out somewhat and various members of the national committee predicted to day they would be elected without opposition. The fight against him, they declare, is not strong enough to make any trouble.

The attitude of Senator Fairbanks regarding the nomination for vice president is not pleasing to many of the arriving delegates, who say that he should declare himself more explicitly. The great majority of delegates who have so far arrived favor him or are not actively opposed to him, but they desire a statement of some kind.

Gen. John L. Webster, of Nebraska, who is a candidate for vice president, arrived this afternoon. He refused to say a word regarding his candidacy, except to remark that he was satisfied with the outlook.

The Lafollette people are making preparations for a desperate fight before the committee on credentials and expect to carry on the struggle to the bitter end. H. W. Chynoweth, who argued the case of Governor Lafollette before the national committee, said to day:

"This is going to be a fight to a finish. There can be no compromise and if the national convention follows the lead of the national committee we must make a final appeal to the voters of Wisconsin."

Among the arrivals to day were 200 men from western Pennsylvania, a large number of delegates being in the party. The Hawaiian delegation, headed by Gov. G. R. Carter, arrived about noon.

FAVOR HITT.

The New York delegation, the majority of which arrived during the afternoon and evening, made it evident that the empire state is not in favor of Fairbanks for vice president. Elihu Root, who is to be temporary chairman of the convention, said:

"There is a strong Hitt sentiment in New York and we are of the opinion he will make a strong candidate. The fact that Fairbanks has expressed no wish for the place has served to aid the candidacy of Hitt."

Chauncey M. Depew is in favor of Speaker Cannon and would like to see him nominated, but the trouble is that Cannon declares he does not want the place.

"As to Senator Fairbanks," said Depew, "I understand that he will not say that he wants the place and that he will not seek it in any way. I do not think that he can be elected to the position if he will not seek it a little bit. An Illinois man in the second place on the ticket would please us in New York."

The California delegation arrived on a special train. Chairman McKinley said that he could not say definitely who the state would prefer for vice president. The state was rather favorable to Fairbanks, but thought he should declare himself more definitely than he had done. Delegates are also here from Ohio, Indiana and Vermont.

Politics, even though it did concern the national convention, was in second place to day with a great majority of the delegates who are in the city. The rooms of the national committee were practically deserted, Senator Scott expressing the opinion there would be no business transacted by the committee to day.

Congressman Hemenway of Indiana to day made the most specific statement that has yet been made regarding the desires of Senator Fairbanks for the vice presidency. He said the senator would take the position if it was tendered him, but would not ask or express a desire for it. Indiana, according to the present program, will not name Fairbanks or any other man when the roll of states is called for candidates for the vice presidency.

PROGRAM.

The following is the official program: Tuesday—Convention called to order by Chairman Payne; prayer by Rev. Timothy P. Frost; reading of the call for the convention; introduction of Temporary Chairman Elihu Root, who will address the convention and report the names of temporary officials; appointment of committees.

Wednesday—Prayer by Rev. Thomas E. Cox; report of committees on resolutions and permanent organization; introduction and speech of Permanent Chairman Cannon; report of committee on rules; naming by state delegations of members of the national committee.

Thursday—Prayer by Rev. Thaddeus A.

YATES HEADS DELEGATION

Governor to Be Chairman of the Illinois Body in National Convention.

Chicago, June 18.—Governor Yates will be chairman of the Illinois delegation in the Republican national convention next Tuesday unless present plans miscarry. A careful check of the delegation, it is declared, shows that he will have a majority of six over Senator Shelby M. Cullom. The contest for the chairmanship will take place either Monday afternoon or Tuesday morning when the Illinois delegates are called together.

National Committeeman Graeme Stewart reserved quarters yesterday on the first floor of the Auditorium Annex for the delegation. George Shelmer, E. H. Taylor and Frank Byron took charge to day, when the headquarters were opened. The down state delegates are not expected until Monday. Governor Yates will arrive then and Speaker Joseph G. Cannon also is expected. Senators Cullom and Hopkins are already here.

LORD ROBERTS' GUEST OF HONOR

London, June 18.—Lord Roberts was the guest of honor at the annual dinner of the Pilgrim club, Ambassador Choate, proposing the king's health, declared King Edward was the steadfast friend of the United States in all circumstances. He spoke glowingly of Lord Roberts' accomplishments in the cause of peace and officially invited him to visit the United States. Roberts modestly replied and expressed the hope to visit the United States soon.

EMBEZZLER ARRESTED.

St. Louis, June 18.—After a pursuit of more than 1,000 miles the sheriff of Mills county, Iowa, to day arrested Clayton C. Potter, clerk of that county, on a charge of embezzling \$8,000 of the county funds. Potter disappeared three weeks ago and before his arrest he led his pursuers a chase extending from Denver on the west to Arkansas on the south.

CENSURE ROOSEVELT.

St. Paul, June 18.—The International Brotherhood of Bookbinders to day adopted a resolution censuring President Roosevelt for his action in the Miller case in connection with the public printing office in Washington. Their special objection is to the president's action in his declaration in favor of the open shop. E. W. Tatum, of Chicago, was elected president.

YACHT RACE.

New York, June 18.—H. H. Rogers crew steam yacht Kanawha to day won the Lysistrata cup and \$2,500 offered by former Commodore James Gordon Bennett of the New York Yacht club, by beating P. M. Smith's Hauloff by three minutes and forty seconds in a sixty-mile race. It was the second race of the series, the first of which was won by the Kanawha last season, and to day's victory gives her absolute possession of the cup.

DRANK IMPURE MILK.

Iowa City, Iowa, June 18.—Six persons were poisoned by impure milk and are in a critical condition at their home on Welsh hills, west of this city. They are Willard Edwards and wife, Gilbert Edwards, John Brown, Fannie Long and John Watkins. They either drank the ptomaine laden fluid or ate cooked food in which it had been used.

CABINET CRISIS.

Liverpool, June 18.—The Post says another cabinet crisis is imminent, the bone of contention this time being army reform. The secretary of war, H. O. Arnold-Forster, and Austen Chamberlain, chancellor of the exchequer, are said to have threatened to resign their portfolios.

BERNHARDT MAKES UP.

Paris, June 18.—Mme. Sarah Bernhardt, who has been at odds with her leading man, Max, to day arranged an affecting reconciliation with him and the two will appear in London on Monday next.

CASE IN JURY'S HANDS.

Bloomington, June 18.—The case of Mrs. Anna Colton Woods, charged with the murder of her husband in 1897, was given to the jury to night. The defendant was arrested in Helena, Mont., after a search of seven years.

On the first indication of kidney trouble, stop it by taking Foley's Kidney Cure. Sold by J. A. Obermeyer, City Drug Store.

SLOCUM VICTIMS LAID TO REST

TWO HUNDRED BODIES BURIED SATURDAY

Number of Remains Recovered Total 577—Missing Number 315—Divers Discover Thirty Bodies in One Spot.

New York, June 18.—A diver who to day renewed the search for victims of the steamer General Slocum disaster found a deep hole in the bed of the river practically filled with bodies. Within an hour eight bodies had been brought to the surface, when the diver was forced to temporarily abandon the work because of the swift current. He stated between thirty and fifty bodies still remained in the hole. One of the bodies recovered to day was that of a woman wrapped or entangled in a large American flag.

After a lapse of three days since the disaster the most carefully collected data shows 568 bodies have been recovered. The missing to day are estimated at 309, while fifty-three victims of the disaster in hospitals are slowly recovering from injuries.

Elaborate arrangements were made by police for handling the crowds that were expected to attend the many funerals to day. Rushmore in the stricken district was practically suspended and nearly every stone was draped in black. The streets were literally filled with hearse. Every church in the vicinity was filled to its capacity.

Unceasing search for over three days and nights has resulted to night in the recovery of 577 bodies of victims of the fire on the steamer General Slocum Wednesday. Although this appalling number does not represent the full extent of the calamity, hopes are expressed that comparatively few bodies remain to be recovered.

The number still recorded to night as missing is 325, but of those many have been accounted for whose names have not been taken from the list and others are among the dead whose identification is impossible.

The region in the vicinity of St. Mark's German Lutheran church was to day the scene of 114 funerals, representing the burial of nearly two hundred bodies, almost all those of women and children. Enormous crowds thronged the streets of the quarter and a large force of police was necessary to prevent disorder and keep clear a passage for the long line of hearse and carriages. Funeral services were held in no less than thirty-seven churches.

PRESIDENT MOYER

Head of Western Miners Delivered to Deputy Sheriffs of Cripple Creek.

Telluride, Colo., June 18.—Sheriff Rutan to day delivered Charles H. Moyer, president of the Western Federation of Miners, to two deputy sheriffs from Cripple Creek, who hold a warrant charging Moyer with being implicated in the Victorville mine explosion in November last, by which two men were killed.

DISMISS LITIGATION.

Colorado Springs, Colo., June 18.—Irving Howarth, one of the leading directors and heavy stockholders of the Portland mine, said to day that the directors of the company will dismiss all litigation brought by President Burns against Governor Peabody. It is said the entire board is opposed to Burns' course.

CONFESSED TO MURDER.

Philadelphia, June 18.—A man giving his name as William Gerstermer surrendered himself to the police to day and confessed to having murdered a woman in Berlin in 1901. After the murder he dismembered the body and threw it into the river.

DECLARED INSANE.

Springfield, June 18.—John S. Harvey, who wrote letters to Governor Yates and Sheriff Bradner threatening their lives and also threatening to burn their property, was declared insane by a jury to day and will be committed to the hospital at Jacksonville.

THREE DROWNED.

Toledo, Ohio, June 18.—By the capsizing of a rowboat near Grand Rapids, Ohio, to day M. N. Bryan and daughter Gertrude, of McComb, and a Mr. Holbrook, of Hoytsville, Ohio, were drowned.

BANK STATEMENT.

New York, June 18.—Loans, increased \$7,536,500; deposits, increased \$12,781,300; reserve, increased \$6,502,300; surplus, increased \$3,307,475.

GENERAL MILES IN PITTSBURGH.

Pittsburg, June 18.—Gen. Nelson A. Miles was a guest to day of Colonel Guffey, the Democratic leader of Pennsylvania. Local political gossip declares he will be the Democratic vice presidential nominee.

GEN. PORTER HONORED

Grand Cross of Legion of Honor Conferred on Ambassador to France.

Paris, June 18.—President Loubet to day conferred upon the American ambassador, General Porter, the grand cross of the Legion of Honor, which is the highest grade of that historic order. It is an honor rarely bestowed even on chiefs of state. It is the first time it has ever been conferred to a representative of America. That the American ambassador should be singled out for the notable honor is considered to be another evidence of cordial sentiments of the French government toward America. Acceptance of the honor must be approved by the American congress.

STRUGGLED FIVE HOURS.

Jacksonville, Fla., June 18.—For five hours Charles S. McCoy, of Chicago, a lawyer, fought a battle for life or death with himself this morning and finished it by arousing courage, according to his own language, to commit suicide.

Overwhelmed by losses in speculation in the stock market, he contemplated death by his own hands as the only relief. He tells of his struggle in a note he wrote as he was making his decision. The note reads:

"Clock just struck 5 a. m. In a few moments more I will be ready if I have the courage."

"7:35: I am a coward after all."

"10:15: Still resisting. Oh, God, have mercy. The way of the transgressor is hard and the wages of sin is death."

At 10:30 McCoy was found dead in the bath tub of his room. There was a long deep cut in the side of his neck.

GENERAL TYNER

Will Sue President Unless He Retracts Words Against Him.

Washington, June 18.—James N. Tyner, once assistant attorney general for the postoffice department, will institute suit against President Roosevelt if the latter should ignore his letter of June 11 asking for a retraction of the president's criticism of his conduct.

"The allegation will be defamation of character and the damages will probably be set at about \$100,000."

The law is now being carefully investigated by General Tyner's attorneys, and unless there is word from the white house soon the case will be filed.

It is pointed out by General Tyner and his friends that he was acquitted on May 25; that he waited until June 11 for some word to come from the executive mansion recalling the accusations made by the president in his memorandum upon the Bristol case, and none came. Finally the general wrote a letter to President Roosevelt, and after awaiting a sufficient time gave a copy to the papers. A week has now passed without a reply.

Just what the president has determined to do in the matter is not known. It has held several conferences with the attorney general and with officials of the postoffice department in the last week, but the result of these deliberations has not been made current.

SECRETARY SHAW SATISFIED.

St. Louis, June 18.—Secretary of the Treasury Shaw visited the world's fair to day. To representatives of the press the secretary expressed satisfaction at the prospects for financial success of the world's fair as indicated by the amount of the first payment made on the government loan. He said the payment was larger than he had expected.

The Philippine reservation at the exposition was dedicated to day. Secretary Shaw reviewed the parade. Colonel Edwards, chief of the bureau of insular affairs, and others made addresses. A number of congratulatory messages were read, one being from President Roosevelt.

PHYSICIAN DISAPPEARS AT FAIR.

St. Louis, June 18.—Dr. W. E. Bleph, of Minneapolis, is reported missing in this city and his wife, who became separated from him several days ago while visiting the fair, is much alarmed over his disappearance. She returned to Minneapolis hoping to find him there, but was disappointed.

RAILWAY SYNDICATE.

Detroit, June 18.—The Tribune prints denials of those whom it says comprise the syndicate which recently purchased the Cincinnati, Hamilton & Dayton railroad as evidence of the gradual development of a combination embracing the Rock Island-Prisco system, the Sea board Air line and the Pere Marquette.

ANOTHER CUT.

Escanaba, Mich., June 18.—After cutting the working day from nine to eight hours three weeks ago, the Northwestern railroad to day instituted a five day working week in the company's shops here. Over 350 men are affected and the cut came without notification of any kind.

CASUALTIES ARE HEAVY

IN THE FIGHTING AT VAFANGOW

Russian Losses Were 2,000 and Japanese About the Same—Survivors of Destroyed Transports—Other News.

St. Petersburg, June 18.—About eleven hundred men wounded at the battle of Vafangow, including fifty-five officers, have reached Liao Yang. The total Russian losses are about 2,000.

Stokelberg's force is marching north, the railroad being unable to transport more than a few thousand men. Special dispatches says the Russians at Vafangow had forty-two battalions against forty-four Japanese battalions. The Japanese had great superiority in artillery, having more than 2,000 guns.

Mukden, June 18.—Two ambulance trains arrived here with thirty-eight officers and 324 men wounded in the Vafangow fight.

SURVIVORS.

Tokio, June 18.—A total of 500 survivors of the Japanese transports Sado and Hitachi, destroyed by Russian warships, have arrived at southern ports. The Russians permitted 600 noncombatants to leave the Sado, but their whereabouts are unknown. Apparently no chance was given noncombatants aboard the Hitachi to leave. The Russians raked the crowded decks of the crippled transport with shrapnel. The Japanese denounce the action as barbarity. The Vladivostok squadron has disappeared off the west coast of Amori.

ENGAGEMENT IMMINENT.

Liao Yang, June 18.—The retirement of the Russians before a superior force from Vafangow and advance of the Japanese east and northward makes imminent a still more important engagement in the southern region. The Japanese have now arrived at a point where the forces are more equal and they must fight on more even terms. The loss of 2,000 men by two Russian divisions at Vafangow shows the courage and ability of officers and troops to retain their position under a percentage of loss almost unprecedented. The Japanese attack on Port Arthur has been delayed.

WAR REPORTS.

St. Petersburg, June 18.—Alexeff telegraphs that he has advised from Port Arthur under date of June 14 that the repairs of all ships of the squadron there have been successfully concluded. This includes battleships, cruisers and torpedo boats.

St. Petersburg, June 18.—The authorities are elated over reports that both the Vladivostok and Port Arthur fleets are in fighting trim. The report on the condition of the Port Arthur fleet makes it apparent that the vessels are ready for sea and if they meet the Japanese the result will be a battle of ironclads which will make a place in history.

Liao Yang, June 18.—Russian officers returning here from Vafangow estimate the losses in the fighting of June 15 at fifty-seven officers and 1,700 men. The Chinese report the Japanese lost 3,000 men.

FIGHT POSTPONED

Jeffries Given More Time to Recover From His Injury.

San Francisco, June 18.—The Jeffries Munroe match has been postponed to the last week in August. Jeffries declared his ability and willingness to meet Munroe June 20, but Manager Coffroth, after consulting with the surgeon, decided that it would be wiser to allow Jeffries more time to recover from his injury. Munroe's manager consented to the postponement on condition that Jeffries pay \$5,000 by next Monday night guaranteeing his appearance in the ring late in August. Jeffries agreed to this.

DEATHS.

Harrisburg, Pa., June 18.—Meade D. Detweiler, former grand exalted ruler of the Elks and president of the board of governors of the Elks' national home, died to night.

Pittsburg, June 18.—Edmund Ferguson, for many years prominent in financial and business affairs in Pittsburg, is dead, aged 70. He is reputed to be worth \$25,000,000.

Rubber in Colorado.

As a rubber producing state Colorado is making a bid for the attention of the world. Within the last few months experiments with a certain species of sagebrush that grows wild over an immense mountainous area of the Rocky mountain commonwealth have proved that rubber of fine quality can be produced from the shrub. Several companies have been organized for the purpose of developing the new industry, and the hitherto despised weed will now be turned to practical use. Special machinery has been invented for the manufacture of the rubber, the construction of which will form still another industry for Colorado.

BANKER MISSING

Excitement in Indiana Town Over the Disappearance of F. D. Gilman.

Indianapolis, June 18.—Excitement is at fever heat at Goodland over the failure of the Home bank. Fred D. Gilman, the owner, who has disappeared, was an ardent churchman, which led many of that class to interest their funds to him. Every pastor in Goodland is a lover. Father Zen, of the Catholic church, leading with a deposit of \$1,500.

Attachment proceedings were issued and the bank to day was turned over to the sheriff. Attorneys for the creditors have been making an inventory of the visible assets and there is little encouragement in the outlook.

The bank at Millroy, owned by Mr. Allison, a relative of Gilman, is threatened with a run, depositors believing the bank was injured by Gilman's disappearance. A small run did occur, but it was promptly met, and it is believed the worst is over. It has deposits of \$100,000.

The run on the bank at St. Paul was caused by the fact that F. R. Gilman was at one time connected with that institution. It is said he withdrew his interest in the concern to use in the Goodland bank, and the officers of the St. Paul bank say the same was without foundation, and that it is in a good, safe condition.

It is thought that many of the depositors will return in a few days the money they withdrew and the bank will resume its usual amount of business. The officers say no money has been advanced to Gilman.

RAISULI'S TERMS

Agreed to by Sultan of Morocco—Doubt Expressed by American Council.

Washington, June 18.—A cablegram from Consul Gummere at Tangier says the sultan agreed to all of Raisuli's terms and the money ransom of \$50,000 was to be paid over to day. Gummere expressed grave doubt as to the advisability of making the payment before Ferdinand and Viceroy were safely returned to Tangier.

SAILED FOR TANGIER.

Gibraltar, June 18.—The British battleship Prince of Wales sailed to day for Tangier.

HIGHBALL WINS AMERICAN DERBY

EQUALS BEST TIME FOR THE EVENT

Woodson, a Long Shot, Second and Rapid Water Third—Sixteen Horses Started in the Race—No Public Betting.

Chicago, June 18.—Without feeling the touch of whip or spur and running entirely on his own courage Highball, the 4-year-old eastern colt, won the American derby at Washington park. Dickerson's Woodson, one of the long shots, was second, half a length in front of Drake's Rapid Water. English Lad, the favorite before the race, was fourth, hopelessly beaten, although he was coming strong at the end. The time, 2:33, equals the best time ever made for this event. The Picket won last year's derby in exactly the same time.

For the first time in the history of the event the betting ring to day was without bookmakers. Eight hundred policemen and detectives were on hand to enforce the law and whatever bets were made were handled secretly. Last year 6,000 saw the race. To day the crowd was 10,000 or 15,000 less.

Sixteen horses faced the starter to day and the field was held at the barrier eleven minutes before the word was given. Proceeds shot to the front and remained there a quarter of the journey. Before going half a furlong English Lad got into a pocket and went to his knees twice. Proceeds retained the lead until opposite the clubhouse, where he fell back. All this time Fuller on Highball had rated his mount about two lengths behind, but was always within call of the leader.

Rapid Water, running easily, hung on in third place until the sixth furlong had been passed. English Lad, after getting off sixth, fell back to thirteenth place and there he remained for more than two furlongs. Dominick gradually worked the favorite through the field in front of him, only to find himself out again; Moharr, next to English Lad, the most heavily backed horse in the race, was less interfered with. Jockey Shaw, who had the mount on Moharr, avoided the crush around the turn and was third into the stretch, but the race was too fast for him when the finish came.

Meantime Proceeds had set the field a merry chase, with Highball and Rapid Water in attendance. On the backstretch Proceeds faded away to nothing, while Highball moved up and took command. The balance of the field had no chance and were strung out for an eighth of a mile. Moharr hung on gamely. Rapid Water for an instant fell back, but came again and headed Woodson. The latter came with a fine burst of speed at the close and finished half a length in front of Rapid Water.

English Lad, who had found clear sailing at last, started after the leaders. Meantime Highball skinned the rail, followed by Woodson. Fuller had Highball well in hand and a sixteenth from the wire had the field thoroughly beaten. Woodson and Rapid Water were under whip and spur, but Woodson kept in front of Rapid Water, the latter being three-fourths to the good of English Lad. Moharr was a distant fifth and the rest of the field badly strung out.

The race had a gross value of \$31,575, of which \$25,575 went to the winner.

THE TIDAL STAKES.

New York, June 18.—Amid the rousing cheers of 35,000 persons John A. Drake's Ort Wells, 4 to 1 in betting, with Hildebrand up, easily captured the \$20,000 Tidal stakes, one mile and a quarter, at Sheepshead bay to day. James R. Keene's Delhi, favorite at 4 to 5, finished third, with E. R. Thomas' St. Valentine second. The time, 2:05, is a new record for the stake.

RECORDS BROKEN.

Cleveland, Ohio, June 18.—Lou Dillon the trotting mare, driven by her owner, C. C. Billings, was sent a mile to a wagon to beat the amateur record of 2:10. The mare made the distance in 2:00, the last quarter in 30 seconds. Billings next rode Charlie Mac a mile to saddle in an effort to break the amateur world's record of 2:19. The record was lowered to 2:17.

PANAMA CURRENCY SYSTEM.

Washington, June 18.—The commission charged with the preparation of a currency system for Panama to day reached an agreement which establishes a coin equivalent in fineness and weight to the United States dollar as standard and which also makes the United States dollar legal tender in Panama.

FORCED TO REDUCE PRICES.

Washington, June 18.—Lieutenant Stone, acting governor of Guam, has under threat of government action forced the food trust of that island to reduce prices on the necessities of life sold the natives.

THE ORIGINAL.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for FOLEY'S Honey and Tar and refuse any substitute, as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. For sale by J. A. Obermeyer, City Drug Store.

SPECIAL NOTICE.

Owing to the unexpected number of protests from many busy country friends, who say that owing to backward corn planting they have been unable to get time to attend the great closing out sale of the Neil S. Ducks stock by the Chicago Merchandise & Salvage Co., we have conceded to their urgent demands and will continue this greatest of all clothing sales until after July 4, by which time we hope all our admiring friends and patrons will have opportunity to indulge in this great bargain-giving event.

We take this occasion to express to our many friends and customers our thanks and deep sense of appreciation for their generous response and loyalty. We will also add that the same fair, square bona fide methods will be employed in the future, as has been the past policy of this house. We also wish to state that while this sale has exceeded our expectations many times (of which fact we are justly proud) our stock is still very large and unbroken, and we are prepared to offer even greater bargains than in the past.

We shall continue the great slaughter in prices and endeavor to merit in every way your liberal patronage.

JULIUS KIRBY'S POSITION.

Springfield News: Julius G. Kirby, a graduate from Purdue university at Lafayette, Ind., has accepted a position as instructor in mechanical engineering in the University of Pennsylvania. He will spend the summer with his parents, Mr. and Mrs. N. T. Kirby, of 303 South Grand avenue, east. The first of September he will go to Philadelphia to take charge of his work.

The many friends of Mr. Kirby in this city will be pleased to learn of his appointment, which certainly speaks well for his record as a student at Purdue university.

Chronic bronchial troubles, and summer coughs can be quickly relieved and cured by Foley's Honey and Tar. Sold by J. A. Obermeyer.

HAS WRITTEN SONG.

The Green Music Publishing company, of East St. Louis, has issued a song entitled, "Illinois," music by Oran Woollen, formerly of this place. The young gentleman will be well remembered by many in this city, where he was born and reared. He is a son of Simon Woollen, who was a printer in the Journal office until the time of his last illness.

WARNING.

If you have kidney or bladder trouble and do not use Foley's Kidney Cure you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases. Sold by J. A. Obermeyer, City Drug Store.

SPECIAL TAXATION NOTICE.

Notice is hereby given to all persons interested that the city council of the city of Jacksonville, having ordained that a brick street pavement be constructed on West Lafayette avenue in the city of Jacksonville, beginning at the west line of Church street and running thence west to the center of Emley street, the ordinance for the same being on file in the office of the city clerk, and have applied to the county court of Morgan county for an assessment of the costs of said improvement, according to benefits, and an assessment therefor having been made and returned to said court, the final hearing thereon will be had on the 2d day of July, A. D. 1904, or as soon thereafter as all persons desiring may file objections in said court before said day and may appear on the hearing and make their defense.

Said special tax shall be divided into ten installments, which installments shall all be equal in amount, except that all fractional installments shall be added to the first, and shall be due and payable on the 2d day of January next after completion and acceptance of the work, and the second installment one year thereafter, and so on annually until all are paid. All installments, except the first, shall bear interest at the rate of 5 per cent per annum.

Broke Up the Show.

Dramatic enterprise in Poland has received a grave shock. At a recent performance there scarcely had the two comic servitors started their ex-cruciating business than a roar went up from the audience. Every one sneezed. The din was deafening. The curtain was rung down. The explanation is said to be that a lady, excluded from the society, had revenged herself by sprinkling the theater with a pungent powder.

Miss Reed, who has been in charge of the suit department in Trade Palace, expected to go to Chicago to day for a visit.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere,—seemed never to achieve a healthy growth?

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

VISITORS TO THE PARK.

Though the weather Saturday stopped the expected wagon transportation from the street car line to Nichols park, a number went out anyhow in spite of the rain and reports are that a great many fish were caught. The owner of the wagon, H. P. Reedy, will probably have a telephone placed in his residence so as to communicate with those who may need his services on special occasions. Already he has had a number of requests to convey parties from the street car limit, and it is hoped that the business will grow to good sized proportions.

\$2.00 to ST. LOUIS, ALTON and intermediate stations and return via THE ALTON, Sunday, June 19, and every Sunday thereafter until further notice; good returning only on date of sale on train leaving St. Louis 7:00 p. m. NO COMPETITION.

The uniform success of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the relief and cure of bowel complaints both in children and adults has brought it into almost universal use, so that it is practically without a rival, and as everyone who has used it knows, is without an equal. For sale by all leading druggists.

STILL A PUZZLE.

Although the Democratic national convention will meet within a few weeks, and the greater part of the delegates to that body have been chosen, the action of the various state conventions does not indicate definitely the candidates who will be named. The Springfield Journal. In Democratic national conventions it requires a two-thirds vote to nominate the candidates for president and vice president, but none of the Democratic aspirants for the presidency has as many as one-third of the delegates instructed for him. Judge Parker, of New York, has a little more than 200 votes and the impossible Hearst about 175, but both appear to have reached their limit and more than 300 delegates are uncommitted and uncommitted. The other candidates have but a small following.

These conditions are favorable to a deadlock. They indicate protracted balloting before a choice is made and the possibility of a stampede like that of 1896, when Bryan was nominated. All that is clear at present is that the Parker and Hearst booms both have come to a halt. At one time Judge Parker appeared to be the coming man, but he has been weakened by his persistent refusal to declare himself upon national issues and now is losing ground steadily. No other candidate is in sight at this time whose strength and availability give promise of uniting upon him the warring elements of the party, and the outcome of the convention is decidedly uncertain. It will offer an unusual opportunity to the leaders to "play politics."

Water jars, hammocks and lawn mowers cheap at the Big Store.

The Texas Star says: "Miss Marion Fairbank, who has successfully filled a position as a teacher in the oral department of our institution for the past two years, has resigned. She will go to her home in Illinois, where she will take care of her father, who is now quite old. She will be much missed."

The return of Miss Fairbank to this city will be hailed by many with sincere pleasure, for no young lady has warmer friends here than the talented instructor in the Deaf and Dumb institution in Texas. It will cause a little amusement to many, though, to read what is said regarding her father. Though past three score and ten he is as hearty and vigorous as many at 45, and no one is more respected than he, and while

ALL OVER THE HOUSE.

Monograms the Correct Thing in Marking Fine Linen.

While the simple initial is perfectly correct, the monogram is the more elegant method of marking linen. The same initial or monogram should be used on all household linen.

French embroidery is the most approved form of decoration, and this is done in fine pure white mercerized cotton or linen.

The letters on sheets, pillow cases and tablecloths are usually three inches in height; for towels and dinner napkins two or two and one-half inches in height, and one or one and one-half inches in height for smaller napkins.

Sheets are stamped exactly in the middle of the top end, about two or three inches from the hem, with the top of the letter toward the middle of the sheet, so that the letter reads correctly when the sheet is turned back. Pillow cases are marked in the same manner, with letters two inches above the hem, the lower end of letters nearest the hem. The letters on towels should be in the same relative position, except when the end is ornamented with drawn work. Then of course the embroidery should be above it, regardless of measurements. Pillow shams are marked directly in the center. On the tablecloths place the letters top upward, either bias or straight with the corner and eight inches from the edge; on napkins in the same way, with letters two and one-half inches from the edge.

New Uses for Potatoes.

Grated potatoes soaked in water in the proportion of two medium sized potatoes to the quart make an excellent liquid for sponging woolen goods or for washing delicately colored fabrics.

A slice of potato will clean oil paintings without injury and dipped in baking soda will brighten silver.

Chopped potatoes and a little soda or ammonia will remove all cloudiness or discolorations in carafes or vinegar cruets.

Brighten the zinc under the stove by rubbing with raw potatoes.

If quickly done, raw potatoes will remove spots from a polished dining table. Finish with equal parts of turpentine and melted beeswax.—**Woman's Home Companion.**

True Hospitality.

I pray you, O excellent wife, cumber not yourself and me to get a curiously rich dinner for this man and woman who have just alighted at our gate!

These things, if they are desirous of them, they can get for a few shillings at any village inn.

But rather let that stranger see, if he will, in your looks, accents and behavior, your heart and earnestness, your thought and will, that which he cannot buy at any price in any city and which he may travel miles and dine sparingly and sleep hardly to behold.—**Emerson.**

The Summer Kitchen.

The kitchen woodwork should be as simply finished as possible, no molding to catch dust, no ornamentation of any kind. White and green are the coolest colors for the kitchen. Perhaps the best thing is to paint the walls so that they may be washed and kept clean from the greasy smoke of cooking. Carpets in the kitchen are most undesirable. The best covering, unless of course a hardwood floor is possible, is a softy tinted linoleum. It wears well and can be washed easily.

W. H. D. Miller, superintendent of the Jacksonville public schools, will give an illustrated stereopticon entertainment at the Christian church, the day evening, June 21, for the benefit of the South Side mission.

OPENING OF ROSEBUD LANDS

RULES FOR SEEKERS OF FARMS

Requirements of the Government Clearly Set Forth So There Need Be No Misunderstanding.

Railway officials and the United States land offices are receiving thousands of inquiries concerning the requirements as to time, place and manner of allotment, and other information regarding the opening of the lands of the Rosebud Indian reservation.

In order that the people may be fully informed, the following facts are published:

The land in question comprises 382,000 acres, situated in Gregory county, South Dakota, between the Missouri, Niobrara and White rivers, in the southeastern part of the state, and in the great corn belt of the Missouri valley.

The process of securing a quarter section of these Rosebud lands consists, first, of registration, July 5 to July 23, inclusive; second, the drawing for allotment, July 28; third, final entry of the land, beginning on Aug. 8.

United States land registry offices are located at Bonesteel, Fairfax, Yankton and Chamberlain, S. D. In order to register for these lands it is necessary to appear in person at one of these offices for registration some time between July 5 and July 23.

Registration cannot be effected through the mails or by the employment of agents (except in the case of ex-soldiers and sailors). No person will be permitted to register more than once, or in any other than his true name. None but persons qualified to make homestead entry will be permitted to register.

These qualifications are that the applicant does not own more than 160 acres of land in any state or territory; is a citizen of the United States (either male or female) over the age of 21 years, or the head of a family; and intends to make entry and comply with the homestead laws, the land to be for his own use and benefit and not directly or indirectly for any other person. It is also required that the applicant has not since Aug. 30, 1890, entered under the public land laws of the United States land which, with a regular homestead would make more than 320 acres, and has not heretofore perfected or abandoned an entry under the homestead laws.

To the above the following exceptions are permissible: Those who, prior to May 17, 1900 made final five-year proof of a claim in certain Indian reservations opened by act of March 2, 1889; those who have lost or forfeited a homestead entry prior to June 5, 1900, or who have commuted a homestead entry and paid the government price for the land prior to that date; those who have relinquished or lost a homestead claim prior to April 28, 1904, receiving no payment or compensation for such relinquishment or loss.

Persons desiring to make a second entry as above, should, before registering, provide themselves with a memorandum giving number and date of former entry, description of the land, date and manner of its disposition or loss.

As soon as registered, each person will be given a certificate which will entitle him to go upon and examine the lands to be opened for settlement, to enable him later to understandingly select the land he desires to enter.

Homesteaders who have commuted one may enter a second homestead, but can not commute the second.

The transfer of a registration certificate to another person forfeits all rights therein.

Honorably discharged soldiers or sailors of the civil war, Spanish-American war, or their widows, may appoint an agent to register in their stead, furnishing them with copy of honorable discharge, or other competent evidence of military service. Such agent can act only for himself and for one such client.

Honorably discharged soldiers or sailors, or their widows, may make declaratory statements through an agent holding power of attorney and must, within six months after so doing, make homestead entry, establish residence upon and cultivate the land for a period of time, which, added to their military service, will equal five years (such residence in no case being for not less than twelve months).

The drawings to determine the order in which those registered will be permitted to select their land will be so conducted that no applicant will gain or lose any advantage whatever by reason of the time, place or order of his registration. This drawing will take place at Chamberlain, S. D., on July 28, continuing until the names of all persons registered have been drawn.

The drawing will be under the supervision and management of the secretary of the interior, through the commissioner of the general land office and a committee appointed by him. Every safeguard to insure fairness will be adopted and it is not essential that persons registered be present at the drawing.

Each applicant will be notified by post card at the address given by him when the drawing of the drawing of his name is made, and the date on which he must present himself for final entry of land, at the land office at Bonesteel, S. D., selection of land and homestead entry therefor being made in the order of drawing, beginning with the applicant who draws number one.

himself for final entry of land, at the land office at Bonesteel, S. D., selection of land and homestead entry therefor being made in the order of drawing, beginning with the applicant who draws number one.

Notice will be sent to those drawing numbers one to one hundred to appear in person at the land office at Bonesteel, S. D., at 9 a. m., Monday, Aug. 8, 1904, to make final entry. Similar notice will be sent to those drawing numbers one hundred and one to two hundred inclusive, to appear at Bonesteel Tuesday, Aug. 9, and so on at the rate of 100 per day until all the lands are allotted.

If when making entry any applicant is found to be disqualified his application will be rejected, notwithstanding his acceptance for registration.

On the date of entry each applicant must personally present certificate of registration and must make the first payment of \$1 per acre. This can be done only in person at the United States office at Bonesteel, S. D.

Subsequent payments of 75 cents per acre must be made at the end of the second, third and fourth years and within six months after the expiration of the fifth year. Default of any of these payments forfeits all right to the land and entry will be canceled. In addition to this total of \$4 per acre the usual land office fees must be paid, amounting to \$1.

No fee whatever is required at the time of registration, which is made upon blanks furnished by the United States land office and for the proper execution of which notaries and other proper officers will be permitted to make a charge of 25 cents for each person.

Within six months after making entry the claimant "must establish a residence. In a house on his claim, and thereafter reside continuously upon the land and cultivate the same for the period of five years." At any time after fourteen months of such residence the entryman may make commutation proof of such entry upon payment of the balance of the purchase price remaining unpaid, together with land office fees and commission, and in addition thereto \$1.25 per acre, for the privilege of such commutation.

The interior department has taken particular care to see that all details in connection with this opening of lands shall be carried for in such a manner as to absolutely prevent fraud, collusion or the depriving of any individual of his full rights and privileges.

The lands to be allotted contain about 2,000 farms of 160 acres each, situated about 2,000 feet above the sea, in one of the best watered regions of the west, with a healthful, invigorating climate, fertile soil and easy means of reaching the world's markets.

Railroads have placed excursion rates in effect daily from all points July 1 to July 22.

Dainty Cherry Pudding.

A light and dainty cherry pudding is on the Charlotte order. Pit the fruit an hour before it is needed, and sugar it well. Then separate the whites and yolks of eggs, allowing four to a pound of pitted cherries. Crumb up about six macaroons and stew half over the cherries in the bottom of a baking dish. Next beat both white and yolks thoroughly, apart. Then mix and add the rest of the macaroon crumbs. Pour over the fruit and bake until meringue is set.

Cooking Fresh Vegetables.

All fresh vegetables should be cooked in boiling salted water. Too much care cannot be taken in washing those that have been exposed to dust in city markets if they are to be eaten raw. For cleaning vegetables nothing else is so convenient as a brush with stiff bristles. Vegetables keep their color better if cooked without covering.

Wax the Pillowcase.

When making pillows if you wax the tick the feathers will not work through. To do this rub a very hot iron with beeswax and place it on the tick. Repeat till the whole thing has been covered.

To Polish Nickel.

Use air slacked lime to polish nickel plate on stoves. It will shine like a mirror. If spots are hard to get off, use a piece of fine sandpaper first.

THE FOURTH

Celebration Will be One of the Grandest Ever Held in the City—Committees are Hard at Work—Attractions will be Numerous.

The committees on the celebration for the Fourth are exerting every effort to make the occasion one of the best that the city has ever had. They are in correspondence with the best fireworks people of the country and will have a display that no one can complain of. This is one of the occasions when every merchant should exert himself to the utmost for the entertainment of the visitors to the city on that day. It would be well for the merchants to make as fine displays as possible in their windows, for it frequently happens that a person sees a thing in a window that they do not buy at the time of seeing it, but afterwards they have that store and that article so connected that when they come to the city to buy they will go to that place, and no other place will do. This is the main reason for decorating windows and store fronts. The committee would appreciate it if every merchant would decorate the front of his store. The flag and a little hunting will work wonders with the front of a store building.

On one occasion, when the soliciting committee asked for a contribution, the person refused to donate on the ground that it did not do any good. If the committee are able to keep several thousand people in the city, it is a sure thing that more or less money will be left in the city, which eventually comes to the merchants, to say nothing of the money left here by our visitors. Let every one do all that he can for the entertainment of our people.

As to the special features: There will be vaudeville, free to all on the square. There will be races of all kinds and descriptions in which every man and boy on the square can take part at the same time if he wishes. There will be a baby show for the ladies in the pagoda and a good, substantial prize will be offered for the best girl baby and for the best boy baby. There will be a dumping eating contest, an event which promises plenty of fun for every one. The dumpings will be dipped in molasses and the boy who eats the most of his dumping on the swing will get the prize.

There will be a sack race for fifty yards. Any one who has seen this harmless little rural race will appreciate the fun of it. Don't stay at home and say you hate the Fourth. Come out and bring every one in the family with you. Make a crowd and have a good time.

The committee have secured the Hunt brothers to make the balloon ascensions and as all their apparatus is brand new, you can expect a sky scraping sight. Get in the swim and make a rifle.

A WORTHY UNDERTAKING.

The Colored Woman's club of this city is setting a very worthy example for the colored people along charitable lines. A little more than a year ago Mrs. A. H. Kenniebrew undertook the task of bringing together a band of colored women interested in their own improvement and that of others. Since then this band has not only grown to large proportions, but several other clubs have grown out of it, following the same idea.

At the last meeting of the Colored Woman's club they decided to use what means on hand toward founding an orphan and old folks' home. Since there are several old ladies and a good many homeless children in our city, this idea can't help but appeal to every human heart. The writer is no club woman, in a sense, but I approve of the idea and pray great success be their reward.

They plan to rent a small cottage and begin in earnest in the near future. Next Tuesday night, June 21, they are planning to give a very unique entertainment in Company L armory to raise means for this cause and every one who can possibly go should do so or buy a ticket anyhow. "Lifting as we climb" is a very noble spirit.

HORSE BADLY INJURED.

A valuable horse belonging to John Vieira, agent for Reich Bros., brewers, was seriously injured Saturday evening in the alley back of the opera house. The driver, Joseph Ornellas, had finished his run and in attempting to turn around in the alley after delivering some beer to Andrew Robert's saloon, the heavy wagon (weighing 1,000 pounds) turned over. The horse was carried over with the wagon and one of the standards entered the fleshy part of the hip about eighteen inches, penetrating the visceral cavity. Dr. Charles E. Scott was summoned and attended the injuries. He fears a acute attack of peritonitis. The accident was very unfortunate, especially as the animal was a very fine one.

I have purchased the grocery stock of Dan Whalen on South Main street and will continue the business at that place with a full line of groceries.

SPRINGFIELD WEDDING.

The wedding of Dr. Charles Patton and Miss Alice Jess, of Springfield, will take place Tuesday evening at the First Christian church in Springfield at 8:30 o'clock. A reception will follow at the home of the bride's mother, Mrs. A. A. Jess. Mr. Hal Patton, brother of the groom, will be the best man and Miss Elsie Crocker, of Springfield, will be the maid of honor.

Miss Jess has frequently visited in Jacksonville, where she has many friends.

ART CLUB NO. 1.

A business meeting of Art club No. 1 was held Friday afternoon at the home of Mrs. Sherman Spencer. After the meeting refreshments were served and a social hour enjoyed. The club adjourned to meet with Miss Anna Robinson on South Church street, Monday, June 20.

CARD OF THANKS.

Mr. and Mrs. William Rose, of Orleans, desire to express their thanks for the many kindnesses shown during their recent sadness and sorrow.

WAS WASTING AWAY. The following letter from Robert B. Watts, of Salem, Mo., is instructive: "I have been troubled with kidney disease for the last five years. I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and less than two bottles completely cured me and I am now sound and well." Sold by J. A. Obermeyer, City Drug Store.

A TEXAS WONDER. One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women; regulates bladder troubles in children. If not sold by your druggist it will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. E. W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by J. A. Obermeyer, City Drug Store.

READ THIS: Jacksonville, Ill., Aug. 24, 1901.—For twelve years I have suffered from sweet diabetes and have spent hundreds of dollars with various doctors, with little benefit. I was recommended to try a bottle of Texas Wonder, Hall's Great Discovery, and will cheerfully testify to the public that it did me more good than all the other medicine I have taken. I have persuaded many of my friends to try it. JOHN R. DAVEY, Greer. J. A. OBERMEYER, City Drug Store.

ALLEGRO CLUB

RECORD OF C. J. BARBER. The State Register of Saturday contains a half-tone cut of C. J. Barber, of that city, who won the highest honors in the graduating class at the Northwestern University law school in Chicago, as mentioned in Saturday's Journal. Mr. Barber is 25 years of age and captured eighty "A" grades, against the previous high record of sixty-seven. This is indeed a remarkable record and speaks well for the training he received while a student of Illinois college here. His many friends in this city are proud of his record and predict a bright future for the young man.

If June were mine, I'd weave for you—Of roses red and skies of blue. Of golden sun and orchard sheen, Of blossom-fretted daisies—A veil of every petal hue.

And from the morning mists of dew Distill a fairy stream that through The woods should wind a way serene, If June were mine.

And e'er the purple dusk anew The curtains of the sunset drew Adown the river's dreamy dunes I'd catch the path of fairy light, And drift into the dawn with you, If June were mine.

War of Lovers on Mosquitoes. Driven to desperation by the prospect of an unusual crop of mosquitoes, the Leap Year Girls' club of Beverly, Mass., has taken the initiative in open warfare on that pest, says a Boston special to the New York Times. The most prolific breeding spots, two ponds, are to be treated to a coat of coal oil. These places are ideal spots for moonlight strolls. Last summer "Lovers' lane" was developing a breed of mosquitoes which made Beverly a close rival for all the honors bestowed on New Jersey. All this will be stopped this year. At least that is what the Leap Year Girls' club says.

POWER IN FISH RATION

Secret of Wonderful Mobility of Japanese Army.

LIVE LONG ON A LITTLE FOOD.

Soldiers Carry Dried Fluffy Specimens, Each of Which Lasts a Man One Week—How the Fish Is Prepared—Independence of Troops on the March.

General John F. Weston, chief of subsistence of the American army, has solved what he believes to be the great secret of the wonderful mobility of the Japanese army, says a Washington special to the Chicago Record-Herald. It lies in the field ration, a sample of which he has received from Major W. B. Barker at Nagsaki, one of the American officers who are watching the war. The ration shows that the Japanese soldier can live and fight for a month on a food supply that weighs less than the daily ration of the American soldier in the field.

The fish received by General Weston is about seven inches long and an inch and a half thick in the middle, dried until it resembles petrified wood. It weighs only twelve ounces, but Major Barker says it will sustain a Japanese soldier for seven days.

When soldiers are on the march they eat the fish just as it is, biting off small pieces, which are thoroughly masticated, but when they are in camp the fish is shaved off in small slices and cooked with rice. The fish resembles a mackerel, but its Japanese name is "nambushi." The fish is about two feet long and thick and sold before preparation for the army ration. In preparing it for army use it is cut in two and steamed and dried alternately until it is reduced to about one-eighth of its original size, with a corresponding reduction in weight.

Each Japanese soldier can carry enough fish and rice to last him three or four weeks, and a whole army can be made independent of the commissary trains that are indispensable in other armies.

Dried fish is used only as a ration. The regular daily ration in the Japanese army consists of one and a half pounds of rice and half a pound of canned meat. The daily ration in the United States army weighs about four pounds, and the emergency ration is not a great deal lighter.

WAR SOUVENIRS. Japanese Humor as Depleted in Cartoons.

H. Varigari, the New York representative of a big commercial house of Tokyo, recently received a funny collection of war souvenirs from the Japanese capital, says the New York correspondent of the Pittsburgh Dispatch. They are bits of cloth designed for use as table covers, napkins, etc., and each one is decorated with a cartoon showing some feature of the war. That the Japanese humor is quite as incisive of that of their Yankee brethren is shown by these cartoons. One of them shows the bottom of the ocean scattered with the wrecks of Russian battleships. The fish are all sick, and the doctor has just discovered the cause of their ailment. They have been swallowing Russian flags.

Mr. Varigari says the people buy these things by the dozen and decorate their homes with them just as we tuck up the funny supplements of the newspapers when they happen to appeal to our sense of humor. He says the Japanese housewife delights in going about the shops picking up these little things just to have a joke with her husband at breakfast.

Blind Men in Revolt. Five hundred and fifty inmates of the Blind Hospital of St. Joseph at Naples broke out in revolt recently because the management had published a regulation limiting the hours of outdoor exercise, says the Rome correspondent of the London Chronicle. A blind old man was posted in the camp to ring the signal bell for the outbreak, whereupon the malcontents swarmed through the windows. To prevent communication with the police they had barred the entrances and destroyed the telephone apparatus. They also tore up the gospels. One of the directors, who sought to summon aid, was forced to leap from the balcony on the second floor to escape the fury of the rebels. Some of the rioters were badly cut and bruised.

RAISING DISHRAGS.

A California Industry Which Has Odd Features.

A novel enterprise, that of raising dishrags, is being exploited by a number of southern California horticulturists, who received the inspiration for the scheme from Charles Richardson, whose gardens in Pasadena are becoming famous for their remarkable productions, says the New York Tribune. Mr. Richardson has successfully raised many growths new to American soil and this year is exceeding all his previous triumphs by raising thousands of dishrags.

Last year Mr. Richardson's string beans, which measured forty-three inches in length, created a stir, but dishrag vines, which, with their pendant dishrags, twine about orange trees, palms, evergreens and peach trees and peck in at the second story windows, bid fair to win the championship from the beans.

These dishrags, or vegetable sponges, as they are sometimes called, are indigenous to Africa, but now it has been demonstrated that they will thrive in the United States they are bound to become a popular production.

The graceful, well-foliated vines are not only ornamental, but they bear in profusion a fibrous sponge that is eminently useful for bathing as well as for scouring pans and kettles. Imagine picking dishrags in one's garden just as one would pick blackberries, or imagine having vines all laden with dishrags chambering over one's kitchen windows so that all one need do is to stretch out an arm and pull one in. Such an arrangement would be much easier than going to the ragbag or buying dishrags at stores.

These curious vegetables assume the form and appearance of cucumbers and hang on the vines until their green coats become brown and dry like parchment. At this stage they are ready to harvest. After they are picked the brown coat is removed and an extremely strong and compact fibrous sponge is revealed. Through the center of this sponge, in three lengthwise compartments, are many black seeds, which shake out easily. In the Pasadena garden these sponges have averaged eight inches in length.

JAPANESE LOVE OF BATHS. Everybody in the Land of the Chrysanthemum Likes to Be Clean.

From time immemorial the bathtub has been an honorable institution in Japan, says Modern Society. Instead of a cold dip in the morning the Japs take their baths hot in the afternoon at about 5 o'clock, and, beginning at 100 degrees, the tendency is to raise the temperature as one becomes acclimated, so to speak. One traveler tells of the Kawayari bathers, who stay in the tub for several weeks at a time with stones in their laps to keep their bodies from floating while they are asleep.

The usual thing is to have the tub on the lawn with a charcoal fire beneath it, so that one can get into the water at 80 degrees and sit in it until it reaches 100 degrees. At this point a "griffin," which is to say a newchum, a greenhorn or a tenderfoot, usually has to get out, for it becomes literally too hot for him. But after a year or two of practice he can manage 115 or 120 degrees. The Japs themselves can enjoy a bath even at 128 degrees.

A traveler tells an amusing tale of how he visited a Japanese friend on an at home day and accepted the offer of a bath on the lawn. He got in when the water was tepid and enjoyed it immensely up to ninety something. Just as he was thinking of getting out his friend's wife and daughter put in an appearance and began to wash rice at a well near by. Now, the regulation bathing dress of Japan is like a footless stocking without a leg or a bung-hole without a barrel round it, and our traveler hadn't it with him at the time. He endured another five degrees, and then, with death by boiling staring him in the face, he was forced out with an involuntary yell that attracted much attention.

The fact is that in Japan everybody bathes in puris naturalibus. It is their way, and it is not till a European has lived among them for years that he or she realizes that after all there is nothing very terrible about it.

AN IDEAL

SUMMER RESORT

The Jeffrie's Orchestra an Attraction.

Eighty-five miles east of Chicago, on the Michigan Central railroad, is Buchanan, Mich., and near by Clear Lake farm, a 400-acre tract, owned by S. C. Cook—a big, home-like place, where one can escape from the noise, heat, dirt and every other ill of the city in summer. Mr. Cook, a former resident of this city, has made much of the farm since buying it in 1900, and it is now most perfectly fitted up for the comfort of those desiring rest during the summer.

New features this season: The Jeffrie's Musical club, of this city; Miss Margaret Brooks, reader, of Springfield; Prof. J. H. Collins, lecturer on birds and animal subjects, with illustrations, will make Clear Lake farm a very desirable place to spend the summer. Write S. C. Cook, Buchanan, Mich., for descriptive booklet and rates.

K. OF P. EXCURSION.

The K. of P.'s have decided to run their annual excursion Wednesday, June 20. The special train will leave the J. & St. L. depot at 12:45 and run via the Jacksonville & Concord road to Beardstown, where the new excursion steamer "Susan" will be taken for a trip to Havana and return. A stop of one hour for supper will be made at Havana.

Jeffrie's Concert band has been engaged for the occasion.

BIDS REJECTED.

All bids for sewer contracts were thrown out yesterday by the board of local improvements, without opening them.

FUNERALS

The funeral services held Saturday afternoon in Springfield over the remains of John T. Capps were largely attended. Besides large numbers from Springfield and vicinity about forty relatives and friends from this city attended.

A brief service was held at the residence for the family and near relatives at 2 o'clock, and at 2:30 o'clock for the general public at the First Methodist church. Rev. Nelson G. Lyons, pastor of the church, officiated at both services.

The employees of the Springfield woolen mills, the board of supervisors and the Springfield G. A. R. attended in a body. Interment was in Oak Ridge cemetery, the services at the grave being in charge of Mendell Post, No. 450, G. A. R. The bearers were: C. C. Capps, A. T. Capps, J. G. Capps, H. M. Capps, W. T. Capps, all of this city, and George E. Lee, of Springfield.

LIFE OF CHRIST.

Miss Margaret J. Stevenson, one of the teachers in the Kansas School for the Deaf at Olathe, has just completed and published a beautiful story of the life of Jesus from the time of His birth until the ascension. Each lesson, of which there are forty, is illustrated by a nice half-tone picture in a very interesting and catchy manner. The story and illustrations are so simple that a child 3 years old can understand them and every home in which there are hearing children should have one of the books. Among the illustrations are: The Birth of Jesus, The Visit of the Wise Men, The Flight, Christ in the Temple, The Feast of Cana, The Drought of Fishes, The Last Supper, The Crucifixion and The Ascension.

THE TOMB OF LINCOLN

Col. Bumpas, a Confederate Veteran Pays Eloquent Tribute to Life of Martyred President.

Springfield, June 18.—Standing beside the tomb of Lincoln, Col. W. H. Bumpas, of Nashville, Tenn., formerly an officer in the confederate army, yesterday afternoon paid an eloquent tribute to the life, character and the works of the man against whose principles he had fought for four long bloody years on the field of battle. The address was one of the features of the visit to this city yesterday of 250 members of the American Association of Local Freight Agents, whose convention has just closed in Peoria. Colonel Bumpas, who is now agent for the Louisville & Nashville railroad at Nashville, was followed by C. H. Newton, agent of the Wabash railroad at Toledo, Ohio, and then the members of the association placed on the tomb of Lincoln an elegant wreath of flowers, which they had procured at Peoria.

The members arrived in this city on a special train on the C. P. & St. L., about noon yesterday, and remained in this city about two hours. GOVERNOR ADDRESSED THEM.

During the time spent in this city many things of interest took place. The party was taken to all the places of interest in Springfield, the most important of which was the visiting of Lincoln's monument.

After the exercises at the monument the party were taken to visit other points of interest in the city, among which were the arsenal and the governor's mansion. At the executive mansion Governor Yates made a most fitting address to the assembly. After visiting all the important places the party left on the special on the C. P. & St. L. about 1:30 p. m., for St. Louis, where they will visit the fair.

A ROCKSLIDE.

Leadville, Colo., June 16.—Reports have been received of a rockslide on the Rio Grande near Eagle canyon. A west bound passenger train has not been heard from.

DR. WEIR MITCHELL

CELEBRATED PHYSICIAN AND AUTHOR

Dr. F. P. Norbury, Who was His Guest Recently, Tells of the Man and His Work.

Dr. F. P. Norbury, who has recently returned from the meeting of the American Medical association at Atlantic City, N. J., spent two weeks before the convention in Philadelphia, where he visited the hospitals, and for a part of the time was a guest at the home of the celebrated neurologist and author, Dr. S. Weir Mitchell.

Dr. Norbury was asked by a Journal representative to relate some of his observations of the man and his work, and they certainly are of a very interesting character.

"Dr. Mitchell is recognized as the greatest authority on the subject of nervous and mental diseases in the world. He began his investigations just before the civil war and the greater part of nerve injuries that occurred in the department of the east were brought to him for diagnosis and treatment. He was a pioneer in the study of nerve pathology and associated with him in his early investigations were Dr. W. W. Keen and Dr. D. H. Wood, both of whom are now eminent in their profession. He was the founder of the Pennsylvania Orthopedic hospital and infirmary for nervous diseases, which strived in two rooms over a store and has grown with such rapidity that it is now the largest institution of its kind in the United States. Dr. Thomas G. Morton, now deceased, was associated with him when the hospital was first opened.

"Very little was known regarding nervous diseases before the investigations of Dr. Mitchell and he is the originator of the famous 'rest cure,' a treatment now in use in all countries.

"In addition to his great professional ability, Dr. Mitchell has also won lasting literary fame. For many years he was a well known contributor to the leading magazines of the country, but after the publication of 'Hugh Winne,' an historical novel dealing with revolutionary times, his reputation as an author was established. While he has written a number of books since his first publication, it still remains the most popular of his writings.

"A work which the author himself regards as his greatest literary effort, is 'The Autobiography of Washington,' now appearing as a serial in the Century magazine. Other books he has written are: 'D. North and His Friends,' 'Characteristics' and 'Adventures of Francois.' The latter work has been dramatized, but owing to the unwillingness of the author to permit certain changes in the third act it has never proved a popular stage production.

"Dr. Mitchell was born in Philadelphia and is now 74 years of age. He remains in Philadelphia between the months of September and June and devotes himself to the practice of his profession, which now is confined almost exclusively to consultation. His literary work is done during the summer, which he spends at his beautiful residence in Bar Harbor. His father was John K. Mitchell, a professor in the University of Pennsylvania.

"Dr. Mitchell lives a quiet life, but his investigations, both medical and literary, have ever been noted for the thorough, careful and accurate manner with which they have been conducted. This fact once known has had a great deal to do with the unqualified manner with which his works have been regarded as authoritative.

"Many have regarded statements made in his historical treatment of 'Hugh Winne' as exaggerated, but it is a fact that they were made only after the author had made careful inquiry and in the matter of distances actual measurements were taken. It was a delightful experience to be with Dr. Mitchell, and although he has received the highest professional honors possible he is withal a man of simple tastes and habits, easy to approach and whose charm of manner makes an impression on the visitor never to be forgotten.

"His son, John K. Mitchell, now has the active management of the hospital and infirmary."
